

SUSTAINABLE TRANSPORT - "GETTING AROUND"

SUSTAINABLE
TRANSPORT

SAVE YOUR MONEY, WALK INSTEAD!

Getting around is easy thanks to the location of your apartment building being close to public transport including buses and/or trains. You can take alternative sustainable transport options that reduce single-occupancy car travel and opt-in to a healthier lifestyle that offers you less expenditure and that warm fuzzy feeling you get when you're doing some good for the world around you!

Walk Score

ON-SITE ELECTRIC VEHICLE (EV) RE-CHARGE STATION

In most Psaros buildings there is provision of an EV recharge station on-site (usually located near a visitor bay). The Station is available for EV car enthusiasts, including residents, proprietors and their visitors who register and activate the charging station network via a RFID swipe card. It is a user paid system with by-laws governing use and billing. Speak with your strata manager about the finer details, including issuing your own swipe card, as well as maximum allowed charging times, access arrangements, and billing details.

DID YOU KNOW...

Cycling is a convenient, recreational and popular sport in WA. Stats show that in one decade (1998 to 2009) the number of cyclists increased in Perth by 450%!

Cycling is an attractive and popular option for inner-city dwellers and your building offers dedicated bike stores and in some buildings, end of ride facilities for added convenience.

GET CONNECTED WITH PSAROSCONNECT

Psaros Connect was developed by Psaros specifically for people residing in their developments aimed at identifying sustainable travel options from the building to a chosen destination. This innovative app calculates the calories burned, as well as estimates the environmental emissions and money saved for the journey. It also shows a range of key amenities in the area so it's easy to connect with all your neighbourhood has to offer. Plan your next trip, get to know your neighbourhood and save!
